

Project Proposal

PROJECT SUMMARY

Project title	Motion-design video to describe the delivery of essential oral health care services during a pandemic like COVID-19 in low-resource settings
WHO responsible officer	Dr Benoit Varenne, Dental Officer, Non-Communicable Diseases Department
Partners	World Health Organization, Aide Odontologique Internationale, Hilfsaktion noma e.V.
Estimated Budget	190,000 Euros
Project implementation period	July 2020 - December 2021
Beneficiaries	Public health authorities, chief dental officers at Ministries of Health, oral health care professionals and other health care providers of oral health care in low income settings
Goal	To minimize the risks of cross-infection and limit the spread of infection in oral health settings during a pandemic like COVID-19 in different settings around the world
Outcome(s)	The preparedness and technical capacity of oral health care personnel undertaking or assisting in the clinical procedure to respond to the population needs of essential oral health care in the context of a pandemic like COVID-19 is increased at global level
Outputs	A series of (3) motion-design videos disseminated on social media and other global professional networks as well as used during awareness campaign and training session

Vidéos d'animation pour décrire les mesures de protection au cours des 3 étapes liées à la prise en charge du patient au cabinet dentaire pendant une pandémie comme COVID-19 dans les milieux à faibles ressources :

- 1) Sélection et accueil du patient
- 2) Précautions standards pendant le soin
- 3) Précautions standards après le soin
